The Ultimate Dana 44™ Front Axles for the Jeep® Wrangler JK

Engineered for all 2007 to 2018 Jeep Wrangler JKs, Ultimate Dana 44™ front axles feature a number of upgrades designed for added durability on the trail. Get a direct bolt-in solution that delivers increased strength wherever you take your vehicle.

**STRAIGHT UP
OR ON THE
ROCKS**

**BUILT FOR ULTIMATE
PERFORMANCE**

CV joints allow for a smooth transfer of power to the wheels from the transmission, so you can take on every trail.

Spicer® Two-Piece 1350 Series Driveshaft with CV Joints for the Jeep Gladiator JT

Get the Lift You're Looking For

The new two-piece Spicer® 1350 series driveshaft for the Jeep Gladiator JT is engineered as a direct bolt-in solution for increased strength. Featuring several upgrades designed for added durability on the trail, this driveshaft includes 3" DOM tubing. Dana gives you everything you need for the upgrade, including a center bearing drop bracket kit designed to accommodate lifted vehicles.

- **100% bolt-in direct fit**
 - All hardware included, no adapter flange or new yokes needed
 - High angle flange yoke at the axle
- **Service free means more driving and less maintenance**
 - Lubed-for-life SPL® 1350 series u-joint
 - Permanently sealed high temperature CV boots
 - Dana-designed CV joint with high performance HNBR boot
- **Two-piece design**
 - Allows for smaller OD, yet high strength 3x0.083 DOM tubing
 - Allows for best possible break over angle
 - Ensures no critical speed issues

Spicer branded spacer and bolts included.

Note: To ensure proper fitment, it is best to measure your application after any axle and lift installation.

The below information is a general guide for selecting the proper driveshafts:

- JK driveshafts accommodate 2-4" of lift
- JT driveshafts accommodate 0-6" of lift
- JL driveshafts accommodate 0-6" of lift

DIRECT-FIT, BOLT-IN
UPGRADE

All genuine Spicer® driveshafts include a Spicer transfer case yoke and hardware for easy installation.

Spicer® Ring & Pinion Gearing for the Jeep® Wrangler JK

Quiet, Durable, Easy to Set Up Gearing for the Dana 30™ and Dana 44™ Axles.

Get the benefits of precision-machined gearing for genuine Dana axles, including a smoother, quieter ride and up to double the life of non-genuine parts. Our Spicer **Differential Bearing Install Kits** and **Differential Bearing Master Overhaul Kits** save you money, downtime, and aggravation by offering the parts you need when you need them.

During fatigue tests, each gear is installed in a production axle attached to a dyno, which then runs until the gear fractures. The high-load test simulates a loaded vehicle going uphill or carrying extra capacity such as a trailer. The low-load test simulates everyday driving at an accelerated rate. Under high-load conditions, Spicer ring and pinion gears lasted an average of 121,080 cycles—nearly three times as many cycles as the closest competitor. And under low-load conditions, Spicer ring and pinion gears performed more than twice as many cycles as the competition!

FOR THOSE
ABOUT TO
ROCK

ROCK STEADY PERFORMANCE

GEAR UP FOR THE GREAT OUTDOORS.

Built with a smaller, more durable 220mm ring gear, Spicer® AdvanTEK® gives Jeep enthusiasts the power to handle even the most extreme off-road conditions.

SPICER®

AdvanTEK®
PERFORMANCE GEARING

Spicer® AdvanTEK® Gearing for the Wrangler JL and Gladiator JT

For the first time ever, every Jeep Wrangler JL and Jeep Gladiator JT vehicle will be offered with exclusive Dana® AdvanTEK® technology, right off the line. Only Dana delivers the technology and performance of AdvanTEK® gearing – available for the Dana 35™ and Dana 44™. Trust them to provide greater power density and fuel efficiency than similar offerings, while reducing driveline weight with lighter, higher-strength materials and advanced Spicer® AdvanTEK® technology.

Spicer® Axle Shaft U-Joints & Driveshaft U-Joint Performance Packs for the Jeep® Wrangler and Gladiator

The Ultimate U-Joints for Premium Performance.

No matter what conditions you face in your vehicle, Spicer Life Series® and Spicer® 10 Series u-joints deliver.

For the **Jeep Wheel Joint Identifier** see page 3.

- Performance packs provide every u-joint needed for repair on the trail
- **Journal Cross:** Engineered with a solid, cold-formed body
- **Lubrication Options:** Available in greaseable or non-greaseable options
- **Bearing Cups:** Heat-treated for strength and precision ground and case-hardened for durability
- **Multi-lip Seal:** Keep grease in and contaminants out
- **Thrust Washers:** Prevent wear by eliminating metal-to-metal contact
- For more application information please visit SpicerParts.com/Identify
- For u-joint testing data, please visit SpicerParts.com/WhatsTheDiff

WHERE PROCESS MEETS PERFORMANCE

Spicer® Performance Adjustable Shocks for the Jeep® Wrangler JK

Hand-Built in the USA by Walker Evans Racing

For the first time, you can get the ride that made the legend. Walker Evans Racing uses only the finest domestic alloys to hand-build these direct-fit shock absorbers. Manufactured with pride in Riverside, California, these rebuildable shocks deliver championship quality on the road and off. Trust the names that people have turned to for decades: Walker Evans Racing and Spicer. **Shocks are sold individually.**

- Braided stainless remote lines withstand abrasion and heat
- Billet aluminum remote reservoir brackets hold tight in the toughest circumstances
- Progressive application-specific valve stacks offer unparalleled ride quality and performance
- 16-position compression adjuster delivers 250% range of dampening force, easily adjusting for any street or trail conditions

WHERE THE RUBBER LEAVES THE ROAD.

Spicer® Front and Rear Axle Shafts for the Jeep® Wrangler JK and JL

Upgraded Dana 30™ and Dana 44™ Axle Shafts for Larger Tires.

Today's Jeep owners are customizing their vehicles with larger tires that stand up to rough terrain. They want larger universal joints and an even stronger axle shaft for their Dana 30™ and Dana 44™ axles. These upgraded front axle shafts deliver with these design improvements:

Made in USA

Upgraded u-joints

- 1350 for JK, 1410 for JL
- 25% higher yield strength
- U-joint sealing package upgraded to Spicer Life Series®

Unparalleled strength and longer life

- Fatigue life improved by 300%
- 2000% improvement in high-angle fatigue life

Upgrades made to Dana 30™ and Dana 44™ axles

- Designed for larger tires and off-road use

Outer stub design re-engineered for added strength

- Improved snap retention for increased shock loading
- Material added to yoke ears and removed from body to equalize deflection through yoke and reduce bearing cap spinning
- Micro-alloy improves strength of shaft
- Statistically controlled heat treatment ensures proper hardness

Spicer® Ring & Pinion Upgrade Bundles for 2020 and Newer Jeep® Gladiator JT with Dana 44™ AdvanTEK® Axles

Get your Jeep Gladiator JT ready to venture off the beaten path with bigger, heavier off-road tires and you'll need larger ring and pinion gearing to match. Dana 44™ AdvanTEK® axles can help you avoid premature part wear and handle higher torque loads, and Dana offers convenient bundles so you can complete the job and hit the trails. The resources found at [SpicerParts.com/Calculators](https://www.spicerparts.com/calculators) can also help you figure out just what you'll need.

GO YOUR OWN WAY.

Spicer® Ring & Pinion Upgrade Bundles for 2018 and Newer Jeep® JL with Dana 44™ AdvanTEK® Axles

The Wrangler JL continues the legendary Jeep story – and as throughout Jeep history, Dana is a trusted partner as both the OE and aftermarket drivetrain components manufacturer. If you're upgrading to a Dana 44™ AdvanTEK® axle on your JL to accommodate an increase in tire size, look for your ratio here, and then discover the additional components you'll need to finish the job. For help, check out our calculators at [SpicerParts.com/Calculators](https://www.spicerparts.com/calculators).

Axle Upgrade Packages for 2007-2018 Rubicon Jeep® Wrangler JK

Upgrading to an Ultimate Dana 44™ axle on your JK? You'll need to upgrade your rear axle as well. Look for your ratio here, and you'll find the additional components you need to finish the job. Once you increase your tire size, you'll need to ensure the correct axle ratio and gear ratio to help you achieve the amount of torque and optimal mileage you're looking for. Check out our free calculators today at SpicerParts.com/Calculators.

Spicer® Ring & Pinion Upgrade Bundles for 2007-2018 Jeep® Rubicon JK

Dana has provided its drivetrain expertise to Jeep manufacturing since 1941. We know Jeeps—we know their specifications, and we know the people who have made Jeep synonymous with adventure. As Jeep enthusiasts upgrade their axles to accommodate larger tires, Dana understands the range of parts needed to make that modification successful. That's why we've engineered a range of ring and pinion sets to match these axle ratios.

Spicer® Ring & Pinion Upgrade Bundles for 2007-2018 Non-Rubicon JK

SPICER® BUNDLE FOR THE JK RUBICON 3.73 RATIO

Additional Performance Products from Dana Aftermarket

Bracketless Crate Axles®

Ultimate Dana 60® Bracketless Crate Axles® now available from Dana for almost any off-road vehicle.

Built with genuine Spicer® components, these mighty Crate Axles feature upgrades that give you a competitive advantage on the trail. Off-road enthusiasts will appreciate the massive SPL-70 u-joints, heavy-duty upgraded brakes, nickel chromoly steel axle shafts, durable Spicer performance ring and pinion gears, and the aggressive nodular iron diff cover. Front Crate Axles feature the Dana-exclusive high clearance housing, while the rear axles utilize ultra-strong 3-1/2" tubes with 3/8" wall thickness.

Get the new Ultimate Dana 60® Bracketless Crate Axle straight from Dana, weld on the brackets that fit your rig, and get ready to overcome even the toughest obstacles. Contact your Spicer Performance sales representative for more information.

Ultimate Dana 60® Bracketless Axles Feature:

- Massive Spicer® SPL-70 front u-joints—exclusive to Dana
- Spicer® 35 spline SAE-4340 nickel chromoly steel axle shafts
- Available with either an Eaton® ELocker® or ARB® Air Locker®
- High-clearance front carrier with ribbed housing design
- Heavy-duty 8" x 6.5" wheel bolt pattern
- Warn® 35 spline hub locks (front)
- Full-float design
- Genuine "Made in the USA" Spicer® ring and pinion gearing: 10" (256 mm) on front axles and 9.75" (248 mm) on rear
- Spicer® 1350 strap-style/half-round end yoke
- Upgraded heavy-duty brakes with plug-and-play ABS system
- Axle tubes: 3.5" outside diameter/.370" (front) or .390" (rear)

Spicer® Extreme™ U-Joints: For Off-Road Use Only

Endurance You Can Count On from the Brand You Trust.

Spicer parts are trusted around the world for their high performance and outstanding durability, and now Spicer brings you their toughest u-joint yet: the Spicer® Extreme™ u-joint. These u-joints can take any off-roading punishment you can dish out; they're virtually indestructible! Featuring a SAE-4340 nickel chromoly steel cross with an enlarged trunnion diameter for added strength, Spicer® Extreme™ u-joints allow you to crawl over every boulder and come back for more.

Forged in Innovation. A Legendary Relationship 80 Years Strong.

The “Jeep” vehicle concept was born in answer to the U.S. Army’s call for designs of an easily transportable 4x4 general-purpose vehicle during World War II. Willys-Overland was one of the original manufacturers selected to produce the chosen design, with Dana (then the Spicer Manufacturing Company) providing the driveline components for every vehicle. After the war, Willys-Overland began selling civilian versions of the iconic military vehicle, and Dana’s relationship with the Jeep brand has been going strong ever since. It’s a relationship for the ages—forged in continuous improvement and innovation—that is believed to be the longest continuous supply relationship on the same vehicle in automotive history. And we’re just getting started.
